NOTE.—The figures in the above Table (No. 4) give the amount of the actual net receipts derived from the Customs, Excise, Estate, &c., Duties, Stamps, and Taxes due to the Exchequer; and do not therefore correspond exactly with the figures in Table No. 2, which gives the payments made into the Exchequer "Exchequer Receipts," on account of these duties in each year.

* The net receipt of Property and Income Tax represents the amount of Tax actually collected within the year (irrespective of the year of assessment) less the amount of Tax refunded, &c., within the year (see note § on page 37). The amounts under the several schedules show the approximate net receipt of the Tax based on the assessments of property and income under each schedule.

NOTE.—The loss to Revenue caused by the reduction of Taxes is in most cases less than the gain which the reduction affords to the taxpayer, because the loss to Revenue is generally recouped by an increased consumption or use of the articles taxed consequent upon the lowering of the duty. Hence the loss is not necessarily the measure of relief to the taxpayer.

* The sums inserted here are equivalent to the gain in 1884-5 when the duty was correspondingly increased. But notwithstanding the decrease of the rate of duty there was an increase of 19,861l. in the Customs Revenue from Foreign Spirits, and of 334,000l. in the Excise Revenue from spirits.

† As stated by Chancellor of Exchequer in Debate on Finance Bill, 1886.

‡ Average of three years 1887-8 to 1889-1900.

§ Mean of two years 1887-8 and 1888-9.

¶ Duty reduced from 3s. 2d. to 2s. 8d. per lb. on unmanufactured tobacco containing 10lbs. or more of moisture in every 100lbs. weight thereof, and from 3s. 6d. to 3s. 0d. per lb. on unmanufactured tobacco containing less than 10 lbs. of moisture in every 100 lbs. weight thereof.

Note.—For expenditure by various Local Authorities, see Table No. 22, pp. 43-9.

* "Loan Charges" comprise repayments of principal made otherwise than out of sinking funds, payments to sinking funds, and interest on borrowed moneys. In the case of the London County Council, the sums paid into the Council's Consolidated Loans Fund (redemption of debt) account are excluded, except in so far as they were actually expended in repayment of borrowed moneys (see note ||).

† Table A includes, and Table B, excludes expenditure met out of loans under the Education (Provision of Working Balances) Act, 1903.

‡ The amounts expended in 1903-4 (and on the "maintenance" of schools in 1904-5) by school boards for areas not comprised in London or in county boroughs has not been ascertained, and is not included in the Table.

§ In the case of the items marked ¶, the loan charges included on account of these items are understated—some unascertained sum is included under "Unapportioned loan charges" (see also note ||). In the cases of "Hospitals" and "Libraries" the apportionment was more complete for 1902-3 than for 1903-4, 1904-5, and 1905-6.

|| In addition, the undermentioned sums, not included in the Table (see note *), were paid by the London County Council into their Consolidated Loans Fund (redemption of debt) account, for the future redemption of debt incurred for purposes of Education, Highways, Bridges, Ferries, Lunatic Asylums, Parks, Sewerage and Sewage Disposal, Tramways, and other works and purposes, viz:—

† The total expenditure given above slightly differs each year from that given in Table No. 22 (pp. 50-1), owing partly to the exclusion of the expenditure of Police Pension Funds (which is included in the previous Table), and partly to the educational returns being taken from different sources, whereby the above figures for 1902-3 and later years are inclusive of a portion of expenditure on account of higher class public schools which is excluded from the figures in Table No. 22.

‡ Inclusive of the cost of collection of school rates by Parish Authorities under the Poor Law Acts to 1898-9, excluded in subsequent years. The election expenses paid to County and Burgh Authorities under the same Acts are excluded in all years.

¶ Includes £736,946 in respect of expenditure incurred in former years and met temporarily out of Contingent, &c., Funds.

Note.—The figures in italics for the years 1899, 1900, 1901, and 1902 show the tonnage of vessels employed by Government in the conveyance of troops, stores, &c., from South Africa. These figures are not included in the figures in Roman type above.

* The figures for Plymouth and Southampton have been increased by the inclusion of vessels "calling off" the port to land or embark passengers or baggage. Such vessels, unless "brought to" in the immediate vicinity of docks or quays were excluded up to the end of 1906, but have been included from 1st January, 1907.

‡ The apparent changes in the area under grass in 1906 and later years as compared with previous years are largely due to greater care in classification in the Irish Agricultural Returns and to the transfer of some grass lands from one category to another, while certain areas previously included as pasture are now included in a new item, "grazed mountain land."

† A revision of the list of articles included under the head of Minerals was made in the year 1903, and the tonnages of Minerals and General Merchandise, and the receipts therefrom, are not strictly comparable with those given in prior years.

‡ Weight of Minerals and General Merchandise, the details for which cannot be separately distinguished.

¶ The decrease shown, on comparison with 1907, is apparent only—a duplication of 20 miles in the returns made to the Board of Trade having been corrected in 1908.

NOTE.—Most British Joint Stock Banks are registered under the Companies Act, 1862, and, consequently, the bulk of the Capital of such concerns is included in the figures given in the above Tables. With the exception of Municipal Tramways, the majority of the Companies working tramways in the United Kingdom are registered under the Companies Acts, and their Capital is accordingly also included. Railway Companies in the United Kingdom are not incorporated under the Companies Act, but by special Acts of Parliament, as they need powers beyond those conferred by registration under the Companies Acts. Their Capital is, therefore, not comprised in these Tables.

* The Stannaries Court was abolished on the 1st April, 1897, under Act 59 and 60 Vict. c. 45.

NOTE.—For additional particulars to those given in above Tables respecting the British Army, see the General Annual Report on the British Army for year ended 30th September, 1909, Cd. 5, 016.

* On the 1st January of the year following that stated. † The Militia strength is that at the date of inspection, except for the years 1900, 1901 and 1902, when the date was 1st July. The Reserve Division strength is that on the 1st July. The Militia Reserve disappeared before the inspection of 1907. ‡ At the date of inspection. § On the 1st November in each year.

|| The decrease between 1898 and 1899 is due to the number of men called out in the latter part of 1899 for active service. The number so called out form part of the Regular Army, but the increase in the number of the Regular Army, shown in the previous Table does not correspond with the decrease shown in this Table, because the average strength of the Regular Army for the year is shown and not the number at a given date, as in the case of the Army Reserve.

*† Includes 2,163 Volunteers.

** Strength on 1st October, of the years stated. The Militia was converted into the Special Reserve during 1908. In 1908 and 1909, there were, in addition, a number of Militiamen and men of the Reserve Division still serving on their old term of engagement.

†† Strength on 1st October, of the years stated, including the Isle of Man Volunteers.

* For years up to 31st July, 1904, reference should be made to the Statistics relating to Secondary Schools and Schools of Science contained in the Volumes of Statistics and the Annual Reports published by the Board of Education. The figures are not given here, because in many cases they include particulars which cannot properly be compared with those given in this table. The term "Secondary School" bears the meaning assigned to it in the Board of Education's "Regulations for Secondary Schools."

† The figures for the year ended 31st July, 1909, give the number of pupils on 31st January, 1909, classified according to their ages on 31st July, 1908; and those for England for the year ended 31st July, 1908, give the number on 1st October, 1907, according to their ages on 1st August, 1907. The remainder of the figures represent the number of pupils on 30th June of the year, or, in the case of a comparatively small number of schools, on the following 30th November.
